8th Edition
37th Year Anniversary

New Profits. Made Easy. Right Now. Here's How!

We at TM Shea Products, Inc. are proud to introduce our new 8th edition, 37 year anniversary catalog featuring many new innovative designs. TM Shea Products, Inc. partners with retailers, wholesalers and CPG/brands to explore and share new creative and performance driven ideas, designs and strategies for in-store marketing/merchandising challenges and solutions.

In an industry with ever-changing needs we continually strive to create the perfect solutions for all types of POP merchandising scenarios, departmental store décor, way-finding and promotional sign systems.

- **POP Impulse Merchandising Displays**
- **Floor Merchandising Displays**
- **Store Décor, Wayfinding, Promotional Sign Holders**

We strive to assist our customers to increase sales and profits by providing durable innovative displays and sign systems with superior product quality, customer service and accurate on-time shipping. Our sales and service team encourage 'One-Stop Shopping' by offering design, development, engineering, photo comps, prototypes, production, sign printing, product pack-outs, 'kit' packing, warehouse and store drop shipments.

TM Shea Products has over 65 patents issued and over 100 patents pending. By combining these patented displays and sign systems you will increase your visual excitement, foot traffic, selling space, merchandising flexibility, new shopper solutions touch points, and sales. New profits. Made easy. Right now.

We look forward to assisting you with your instore marketing and merchandising challenges.

Sincerely,

Thomas M. Shea, President

Create A-Store-Within-A-Store

OFF THE GONDOLA

SwingStrips® get your products noticed. Designed for impulse and cross-merchandising, SwingStrips® are visually appealing, reload and shop easier than traditional merchandising strips methods; thereby selling products faster. Some retailers have experienced a sales lift of approximately 75% over plastic strip clips and/or J-hooks.

ON THE FLOOR

The PowerPillars™ offer a uniform look and flexible promotional floor merchandising. Their unique “lego-type-system” feature accommodates a variety of accessories for changing product schematics. The plan-o-gram, including graphics, can be changed with seasonal requirements or category strategies. These floor spinners are ideal for down aisle promotions, side of endcaps, perimeter drive aisles and check-out lane areas.

IN THE AIR

Our department overhead sign systems dress up your plan-o-grams to create an upscale shopping experience, more foot traffic and shopper activity. Overhead signs along with wayfinding category ArcArms™ help customers navigate through the store, highlight higher-margin departments and provide high visual impact. Department sales have increased 20-25% for some retailers.

The 'Systems Solutions' Approach

Evaluate

- Are you currently using traditional J-hooks and disposable plastic strips?
- Are your disposable plastic strips blocking product on the shelf?
- Are you making the most of all possible selling space?
- Do your displays provide continuity and are they easy to shop and reload?
- Are your aisles easy to navigate?
- Are your departments visually enhanced to increase customer foot traffic?

Strategize

- Determine the merchandising and sign systems that will work best for your store or brand.
- Identify key locations for displays and signs.
- Create graphics that offer a 'call to action', brand awareness or lifestyle imagery that matches your store decor.
- Review in-store photo comps created by our graphics department that superimpose our displays and graphics onto your plan-o-gram.

Test/Rollout

- Once a merchandising and in-store marketing strategy is developed, we can provide you with fixtures and prototype signs to rollout a department or store for testing.
- Installation can be performed by in-store personnel or a third party service.
- Track sales results and compare them to previous reports; let the numbers speak for themselves!

Profit

- You will find that turning your unused air space into "new profit centers" will dramatically increase your sales.
- Utilizing our displays for in-line and cross-merchandising significantly boosts promotional sales.
- Retailers can off-set fixture costs with vendor lease programs and placement fees.
- Our displays are very durable and offer both retailers and brand marketers a quick return on investment.

Gondola Displays

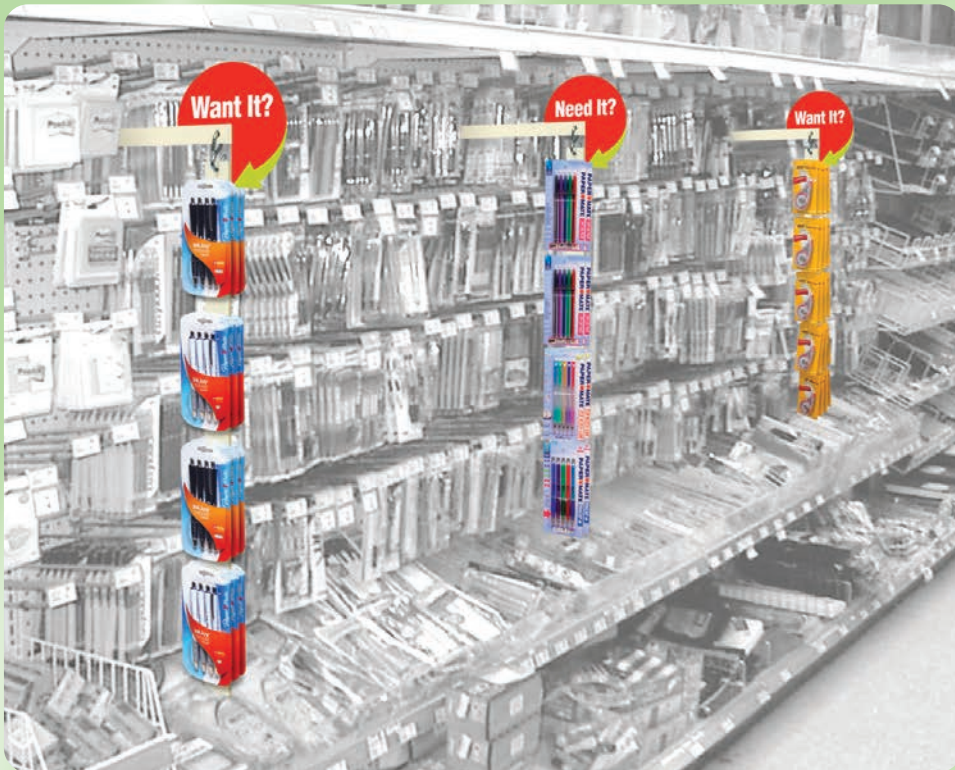

PROBLEM

Unused valuable selling space result in missed sales and profits.

EXAMPLE

22"	Base Deck
– 8"	Peghooks
14"	Unused Air Space

SOLUTION

Add gondola displays to:

- Expand selling space 10-40%
- Promote new products
- Increase foot traffic
- Raise sales per square foot

Off Shelf

Off Wall

End Cap Sides

More Selling Space for Retailers. More Impact for Brand Manufacturers

Our gondola displays take your products off the shelf and make them more visible to customers. Ideal for in-line and cross-merchandising, gondola displays capture unused air space and create new or promotional selling space. Whether you choose an off shelf, off wall or end cap application, each of our innovative patented displays provide a clean look that has been proven to be far superior to traditional J-hooks and disposable plastic merchandising strips. Many retailers and brand manufacturers view our programs as "best practices" for impulse and cross-merchandising. Retailers can create more selling space, and brand manufacturers have the opportunity to not only get their products in the store, but in front of the competition!

Increase Impulse Sales By In-Line and Cross-Merchandising

- Off shelf SwingStrips® make products stand out.
- Proven to out-sell traditional disposable plastic strips and J-hooks.
- SwingStrips® are made of extruded plastic in standard lengths of 20, 30 and 60 inches.
- Available in stock ivory or special order white, black or gray. Custom colors also available.
- Peg hooks are available in a variety of styles and lengths of 1-6 inches with or without UPC scan plates.
- Peg hook prongs snap and hide inside the extruded plastic for an extra clean presentation.
- Peg hook holes are drilled vertically every 1.25" or can be custom-spaced to accommodate your products.
- Add custom die-cut signs to further increase the visibility of merchandise or "brand" the display.

Why PSE Card Displays?

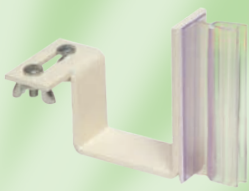

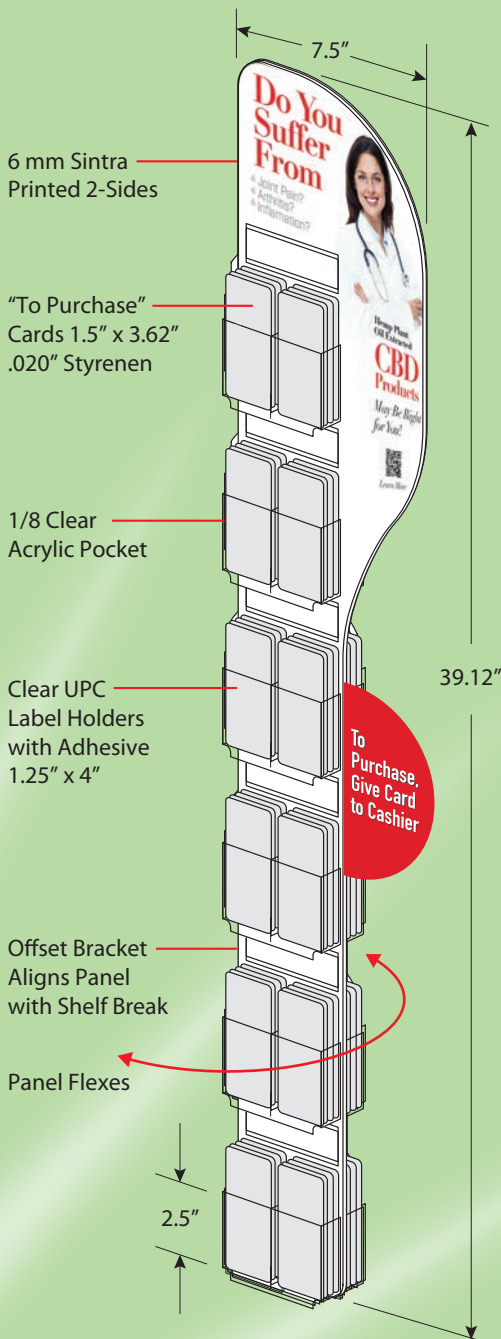

Sales have fallen off dramatically of pseudoephedrine products for cough, cold, and allergy, since the removal of PSE products from the POG. This system provides a way to display cards in front of the customer without disrupting the current OTC product mix and taking away valuable shelf space. This display meets your shoppers needs and will accelerate your PSE sales.

- PSE Card Flex Pocket Panels offer you and your shoppers a sleek low profile and visually exciting promotional display system.
- Each panel displays 12 PSE cards to inform the customer of your PSE product offers.
- We also print and provide the Pocket Panel PSE cards offering you a complete turn-key kit.
- PSE Pocket Panel Cards offer the customer the ability to:
 - Compare product labels and Pricing
 - Find information on duration

Off-Set Shelf Break Bracket
PP-BB-USB6-W

"To Purchase" cards offer multiple benefits. They provide security, dramatically reduce the amount of shelf space required, and act as an inventory tracking system.

Our gondola displays are environmentally friendly unlike disposable plastic merchandising strips.

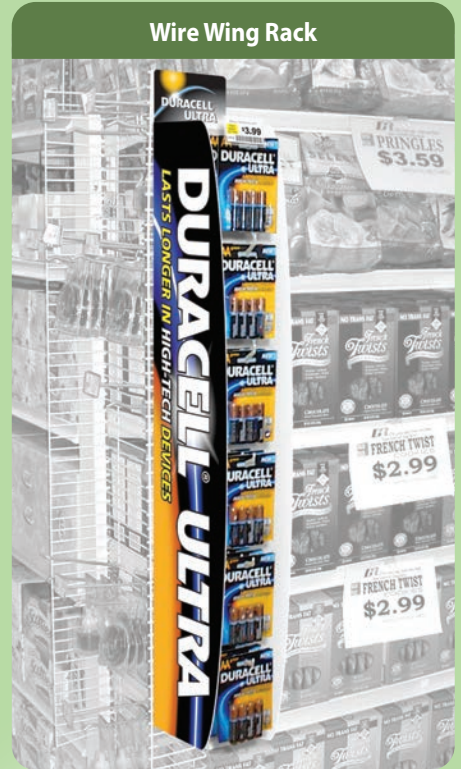

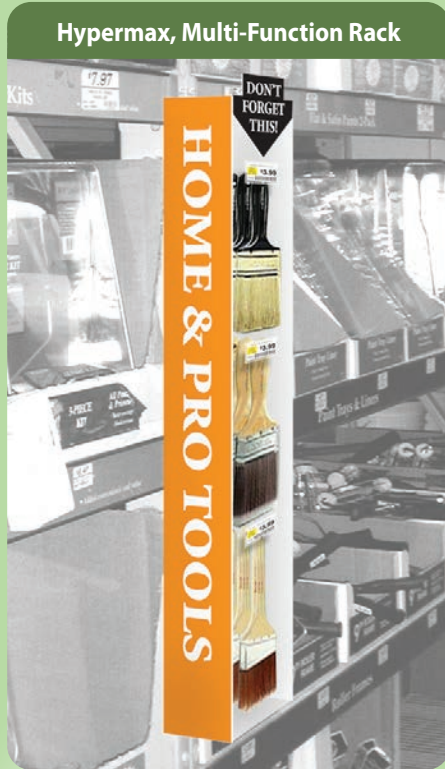

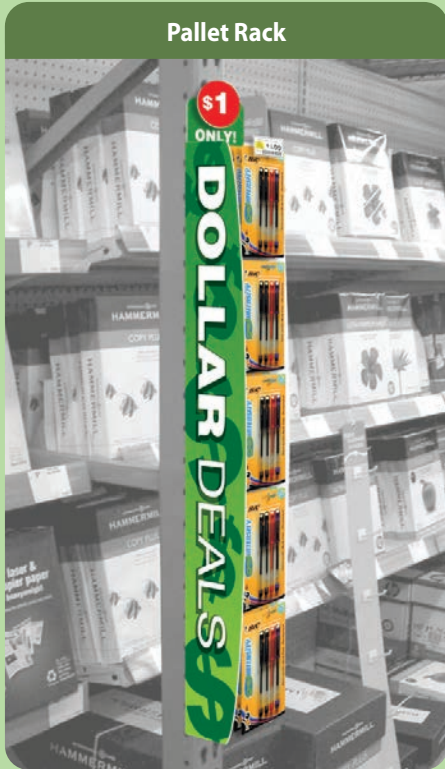

Why Flex Pocket Panel Displays

The fundamental questions surrounding this high-growth business are in-store location and inventory management. As you might agree, CBD products belong in OTC within the vitamin and supplement POG, and they should also be promoted within the pain relief and skin care departments. You may choose to have a dedicated front end cap for CBD Central and promote the product through the card system in relative areas like vitamins, pain relief and skin categories.

- **CBD Category Awareness and Multiple Product Benefits:** while awareness of the many CBD product benefits is increasing, it is not often a destination purchase and, therefore, should be promoted in the relevant departments (e.g., pain relief, skincare, and vitamins/supplements).
- **Product Placement:** POG placement occupies valuable shelf space, forces revisions, SKU rationalization, and creates sales risk for existing SKUs.
- **Loss of Productivity:** Store management is required to monitor security cases (locking/unlocking) throughout the day.
- **SKU Duplication:** Three in-line locations will drive significant incremental inventory dollar expense.

PowerTowers™

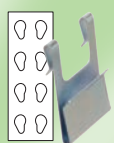

Secondary Displays Help Stimulate Additional Sales

- PowerTowers™ are custom ordered to display your merchandise off of pallet, hypermax, multi-function vertical racking and wire wing racks.
- Custom printed side panels and headers display your P.O.P. logo and graphics.
- Peg hooks are available in a variety of styles and lengths of 2 to 6 inches with or without UPC scan plates.

Floor Displays

PROBLEM

- One-sided floor displays consisting of different sizes, shapes, colors and materials.
- Restricted merchandising capabilities.
- Visual clutter.
- Promotional displays are difficult to move and easily fall apart.

SOLUTION

- Replace cardboard displays with PowerPillars™ for uniform merchandising.
- Durable floor spinner gives access to all products from any side.
- Accommodates a variety of pegged, boxed, bottled and bulk product.
- Graphics can be changed depending on seasonal requirements or category/brand strategies creating a more permanent display.

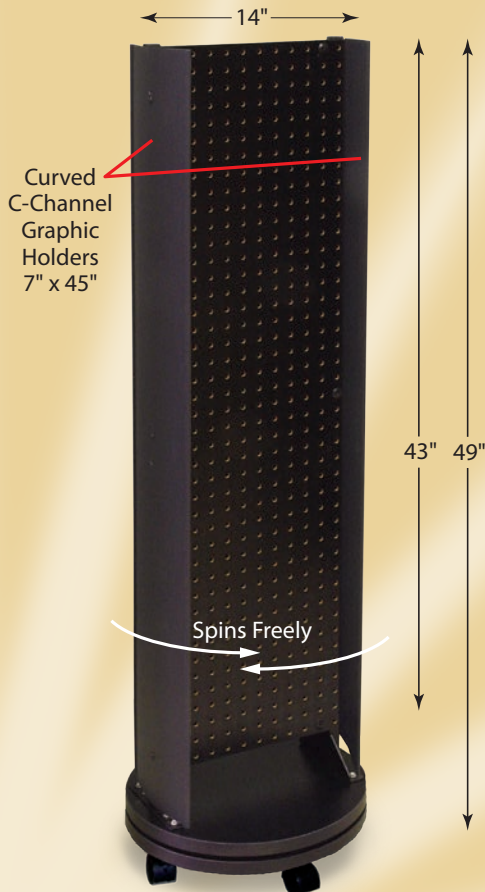

The above trademarks and those throughout this catalog are owned by the indicated companies and are not owned by T.M. Shea Products, Inc. The trademarks are being used in this catalog only for illustrative purposes and are not intended to indicate any other connection between these companies and T.M. Shea Products, Inc.

Why Our Floor Spinners Sell More

At TM Shea Products, we offer modular floor display systems because they look better and sell more product faster. Superior for merchandising throughout your store our floor displays offer a variety of accessories to hold an assortment of products. Peg hooks, shelves and dump bins allow you to merchandise a variety of products. They can be placed virtually anywhere in the store, and the graphics are infinitely customizable to create uniform P.O.S. messaging that matches your store décor/brand. Each display can generate hundreds of dollars in weekly incremental sales!

Rotating Floor Display

Impulse Solutions for Boxed or Bottled Products

These displays will give you greater flexibility for merchandising high density sales in a small footprint. Placing these displays throughout the store will give you a uniform look and visual continuity.

- Includes hardware and sign holder
- 18" shelves can be vertically adjusted by using the hose clamp/washer system or through hole cotter pin
- Quick easy assembly

Our gondola displays are environmentally friendly unlike disposable plastic merchandising strips.

BucketTree Spinner Display

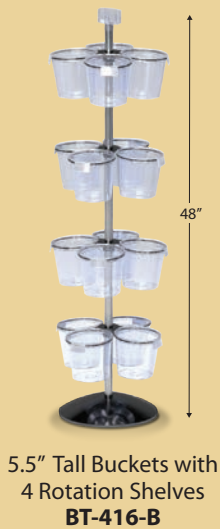

ON THE FLOOR
Rotating Floor Display / Bucket Tree

Boost Your Drive Aisle Impulse Sales & Profits

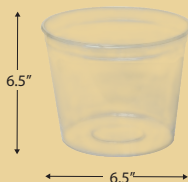

With a 16" diameter base, it can be placed anywhere on the sales floor and with countless bucket configurations, you can merchandise small and medium products alike. Adding a header sign to the display guarantees that the products will sell faster.

Sign Systems

PROBLEM

A basic plan-o-gram that is visually unappealing with category locations not defined.

SOLUTION

Install high impact overhead signs and way finding category.

ArcArms™ to help shoppers find products faster and easier.

Give your department the "WOW!" factor and keep your customers shopping longer.

The above trademarks and those throughout this catalog are owned by the indicated companies and are not owned by T.M. Shea Products, Inc. The trademarks are being used in this catalog only for illustrative purposes and are not intended to indicate any other connection between these companies and T.M. Shea Products, Inc.

Overhead Sign Systems Take Plan-o-grams to a Higher Level

The easier it is for customers to find what they are looking for, the easier it is for them to buy your products. Enhancing the shopping experience is the idea behind our POG overhead sign systems. Dress-up your plan-o-grams to help shoppers navigate through aisles and locate products faster. This results in higher sales due to increased foot traffic. A combination of POG overhead signs and category ArcArms™ will complete your “store-within-a-store” concept by offering an upscale visual appeal that can include lifestyle imagery and brand graphics. Our overhead sign systems are easy to install and offer a big return on investment!

End Cap Promo Signs

Elevate Your End Caps with Visual Impact Signs

- Dress up your end caps with visually motivating signs that generate more foot traffic and sales.
- Help guide your shoppers through the aisles/departments.
- Create navigational wayfinding end caps.
- Exciting lifestyle visuals will capture their attention.
- Graphics can be created to match store décor, highlight a brand or emphasize a retail generic category.
- Creates visual speed bumps for shoppers.

Who We Are

- T.M. Shea Products, Inc. is proud to be celebrating our 40th year anniversary.
- We design and make creative point-of-purchase display fixtures, print signs and kit pack for warehouse and drop shipping stores.
- An industry leader in design and development of highly effective and visually appealing impulse P.O.P. displays for 'white space'.
- Many standard P.O.P. display programs we offer can also be custom fabricated to meet your specific needs.
- You will find our catalogs, marketing brochures and our new website (coming soon) very informative and packed with exciting new in-store marketing strategies.
- We offer many solutions for driving incremental sales and profits with merchandising flexibility.
- over 60 issued U.S. patents with many more patents pending.

How We Work for You...

- Explore and discover all the new P.O.P. display product lines for impulse/promotional cross merchandising display solutions.
- We are offering displays that capture unused 'white air space' in the stores and/or have improved on the current displays already in the stores.
- T.M. Shea Products, Inc. can supply you many stock designs, create variations of current designs or design, engineer and fabricate custom displays.
- We offer sign design with printing services and can kit pack all displays, even pack-out with CPG products for warehouse or store drop shipping.
- TM Shea can help support your GM/HBC candy, meat/seafood, grocery, dairy, deli/bakery and produce categories with more sales opportunities.

Results and Benefits We Deliver....

- Proven success with many retail chains, distributors, national and specialty brands.
- T.M. Shea Products, Inc. will deliver new found permanent, promotional, rotational selling space throughout the store thereby increasing merchandising flexibility.
- Supply displays for first-to-market new product launches, seasonal sales, in-line impulse and cross merchandising shopper solutions.
- Increase overall sales, average sale/sq. ft.(inch) and average sales/shopper.
- By adding many new promotional touch points and promos your customers will increase their loyalty and shopping frequency.

Fresh new displays, for fresh new shopper solutions, delivering fresh new sales!

SIGNAGE

Monster PowerPanel Floor Displays

Make Your Endcap Sides Work Harder and Smarter for You!

On the side of end caps most powerpanels or wire wings are 14" x 48" compared to our 24" x 72" Monster power panels will give you almost 3x the selling space in the same footprint while delivering a huge lift in sales, profits and more shopper solutions. Perfect for cross merchandising candy, snacks, GM, HBC, private label and specialty items.

- 24" x 72" of selling space
- Flexible merchandising with 6" and 8" peg hooks, shelving and dump bins
- High profile locations for aisle and perimeter visibility
- Changeable custom printed graphics

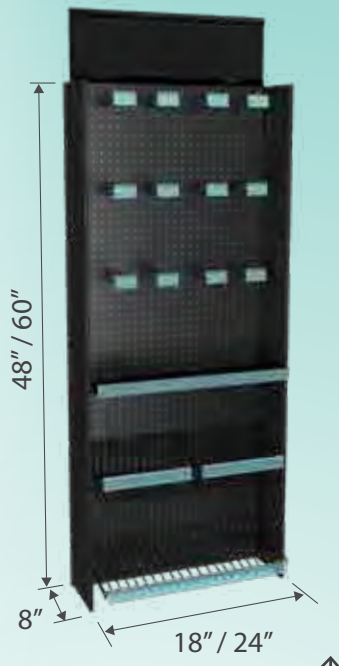

Monster PowerPanel Suspended Displays

**Boost Your Endcap Side Sales
 And Merchandising Flexibility
 Far More Selling Space Than
 The Basic 14" X 48" Wing Panels**

The new Monster PowerPanel is perfect for impulse sales of GM/HBC, snack, candy specialty food items to private label, seasonal and price promos. This design suspends from our heavy duty arms that lock into the slotted end cap siderails, keeps the display in the air and off the floor. Very robust and durable construction to last many years. Easy assembly and installs fast.

- High visibility on the side of end caps
- 3 Sizes - 18" x 48" / 18" x 60" / 24" x 60"
- Variety of 6" and 8" peg hooks, shelving and dump bins
- Plastic side sign channels
- Heavy duty suspension arms
- Custom printed sign graphics

12" x 48" Acrylic Shield Safety Extender

Protection for Your Staff and Your Customers

These durable acrylic 12" x 48" clear panels mount easily with our unique 2-way clamp system for securing safely to the glass partition barriers. Currently the glass is too low and shoppers reach in drop items/ talk or cough above the glass and contaminates the fresh seafood, we now can prevent this from happening.

- 3 Mounting joining clips per panel
- Acrylic 12" x 48" safety extenders
- Prevents the spread of germs
- Easy to assemble
